

RATES OF NATIONAL REFERENCE LABORATORY FOR BIVALVE MOLLUSC DISEASES - 2018

The activities marked with * are not covered by ENAC accreditation.

The determination by PCR of more than one pathogen for the same sample, increases the cost of the analysis at 5.5 € per pathogen and sample. If the determination is made by qPCR, the cost increases by 6.2 € per pathogen and sample.

For procedures not included in the rate table, contact the person responsible for the Service.

All rates include VAT (21%).

TECHNIQUE	CSIC USER PRICE	EXTERNAL USER PRICE
*Histology	21 €/sample	24,9 €/sample
*Cytology	9,9 €/sample	11,9 €/sample
<i>Marteilia</i> spp. detection by histology	21 €/sample	24,9 €/sample
<i>Marteilia</i> spp. detection by cytology	9,9 €/sample	11,9 €/sample
<i>Bonamia</i> spp. detection by histology	21 €/sample	24,9 €/sample
<i>Bonamia</i> spp. detection by cytology	9,9 €/sample	11,9 €/sample
Detection of <i>Perkinsus</i> spp. by histology	21 €/sample	24,9 €/sample
* <i>Perkinsus</i> spp. detection by incubation in Thioglycolate medium	10,2 €/sample	12,2 €/sample
*PCR-RFLP to detect <i>Bonamia ostreae/exitiosa</i>	10,1 €/sample	12,1 €/sample
*PCR-RFLP to detect <i>Marteilia refringens</i> type O/type M	10,1 €/sample	12,1 €/sample
*PCR	10,1 €/sample	12,1 €/sample
*qPCR (herpesvirus, <i>Vibrio aestuarianus</i>).	11,1 €/sample	13,3 €/sample
